

TECHFEST

Aberdeen and North-East Scotland's Festival of Science, Technology, Engineering & Mathematics

TECHFEST EUREKA SERIES

As part of our Eureka Series sponsored by Chevron, TechFest has organised a series of Summer activities to be held across Aberdeen and Aberdeenshire.

If you would like to attend or would like more information, please contact TechFest at enquiries@techfest.org.uk.

The cost of each workshop is £1 per child, please note all children must be accompanied by an adult.

Children, from 3 years – 12 years, will be given the opportunity to test their science and engineering skills through a number of hands-on workshops including using science to solve mysteries, solving puzzles and designing and building.

Science Detectives

An opportunity for young super sleuths to put their investigative skills to the test. Use science to solve mysteries in this light-hearted introduction to forensic science.

Science of Flight

Pupils will develop their technology skills in make-and-take flight activities. Learn about the science of flight and the concepts of thrust and drag, lift and gravity as we lift up, up and away in this interactive workshop.

Maths Around the World

A fun, hands-on maths workshop designed to challenge and build confidence. A variety of puzzles, representing different countries, are set out around the room. In small teams, pupils travel around each puzzle with a customised passport logging the countries they have visited. Help and encouragement is at hand and solutions checked.

K'NEX Engineering

A unique opportunity to develop engineering, problem solving and team work skills by building K'NEX models designed and constructed to solve a challenge created by the presenter.
